AMARON JADE AGM

Amaron Jade is designed with superior safety features. Thus, making them the most suitable for big automobiles, SUVs, vans and other vehicles with increased energy throughout battery life.

3x Endurance

These batteries last three times longer than conventional lead-acid battery.

Non-spillable

An exceptionally vibration resistant, completely sealed, non-spillable makes these batteries maintenance free.

1.2x cranking power

They provide 20% more starting power, ensuring your engine starts easily even in tough conditions.

High vibration resistance

These batteries are built to withstand strong vibrations, making them perfect for rough terrains and bumpy rides.

Battery Model	UK Code	Ref. AH @ C20	CCA @ -18°C Amps(EN)	RC in mins	Assembly Layout	L (mm)	B (mm)	H (mm)	Terminal	Case Type	Hold Down
